

RECONDITIONING, Not Replacing

Your used precision tools are in the best possible hands: We will recondition your tools and return them with the original finish, coating, and geometry – as good as new!

Benefits

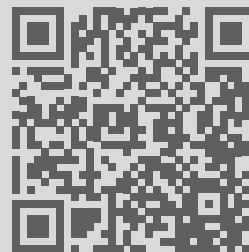

- ▲ Reconditioning completed at our CERATIZIT Sacramento location
- ▲ High-quality process due to the same machining parameters as new tools
- ▲ Reduction in your production and tool costs

Frequently Asked Questions

Where will my tools be reconditioned?

The end mills will be reconditioned in at the same facility where CERATIZIT end mills are originally manufactured at our CERATIZIT Sacramento location.

Who can recondition?

Any distributor or integrator set up with CERATIZIT product. Any customer with a direct account set up can also initiate a reconditioning request.

What tools are able to be reconditioned?

All CERATIZIT end mills, with the exception of the Micro line can be reconditioned. At this time, WNT tools are not available for reconditioning. end mills produced by other manufacturers will be shipped back to you. For a full reconditioning offer, please refer to our US price list.

What will happen if my tools are not repairable?

On the reconditioning form, you can tell us whether we should scrap your tools, return them to you, or if CERATIZIT can quote you for a new replacement tool.

Will the reground tools be etched with a regrind code?

All reground tools will be marked with RS/RC and the date

Where can I find the prices for reconditioning?

Please refer to the latest price list, which can be obtained from customer service or through the website <https://cuttingtools.ceratizit.com/us/en/reconditioning.html>
